

**FOLEY****CAT**

October 21, 2009

Dear Private Commercial Bus Operator,

**FOLEY, INC.** is an authorized NJ DEP Best Available Retrofit Technology (BART) Installer. We have performed retrofit installations on 1,800 on-highway vehicles under the NJ DEP retrofit program.

By selecting **FOLEY, INC.** as your retrofit installer, your compliance workload will be easy and trouble free. Listed below are the support services and installation conveniences that we provide.

**FOLEY, INC.** will provide your fleet with:

- 1) A review of all NJ DEP regulations for Private Commercial Buses.
- 2) Management of all required NJ DEP documentation.
- 3) A complete fleet assessment and exhaust temperature data logging on your buses **AT YOUR LOCATION(S)**.
- 4) We will submit your fleet profile to NJ DEP for approval at **YOUR LOCATION(S)**.
- 5) We will perform the retrofit installations for all chassis and engine manufacturers (Cat/DDC/Cummins) at **YOUR LOCATION(S), DAYS OR EVENINGS**.
- 6) State of the art products from Cat and Donaldson.
- 7) Retrofit installation maintenance training and driver training at **YOUR LOCATION(S)**.

Our retrofit installation experience:

- Over 1,400 School Bus retrofit installations
- Over 400 Refuse Truck retrofit installations
- Construction Equipment and Industrial Engines

Simply put, **FOLEY INC.** has the people, the products and the experience to provide your fleet with trouble free document management, fleet profile submittals, flexible installation schedules with complete support throughout the process to meet the NJ DEP compliance regulations, all **AT YOUR LOCATION(S)**. Your complete satisfaction is our # 1 goal.

Interested? Please call **ANITA PATEL** at **732 885 3051**. We will have a retrofit specialist contact you immediately to provide solutions and guidance throughout the process.

Attachment: NJ DEP directive letter for all Private Commercial Bus Operators in New Jersey.

Best Regards

Charles Woods
